OBJECTIVE :

Seeking a responsible position in an organization, which gives me a chance to improve knowledge, enhance my skills and enable me to strive towards the overall development of the organization.

EDUCATION

An Autonomous Institute of Government Polytechnic Maharashtra	Nashik
Diploma in Information Technology	*Aug. 2019 – May 2022*
K K Wagh Institute of Engineering Education & Research	Nashik
B.Tech in Artificial Intelligence and Data Science	*Sept. 2022 - 2025*

PROJECTS

LearnoScope | *MERN (MongoDB, ExpressJs , React ,Node)*   June 2021 - Aug 2022
- Web application developed for educational purposes.
- It provides necessary study material in the form of videos without any advertisement or distractions enabling distraction free study experience to the user.
- Users can watch and share his own content. Payments are also possible in app with help of razorpay payment API.

To-Do Web Application | *MERN (MongoDB, ExpressJs , React ,Node)*   Aug 2023 - Sept 2023
- Developed a Full Stack application for efficient task management, featuring user authentication and role-based access controls (User and Admin roles).
- Designed and implemented intuitive interfaces to create, update, and track tasks with priority levels.
- Built secure and scalable backend APIs to manage tasks, users.

Course Selling App | *MERN(MongoDB, ExpressJs , React ,Node)*   Sept 2023 - Nov 2023
- Developed a Full Stack application which is designed and implemented user-friendly interfaces for course browsing, purchasing, and management which has User and Admin roles .
- This provides Encryption, Authentication and Authorization using JWT Tokens, middleware for security purposes.
- Engineered robust backend APIs to handle user requests and send responses efficiently .
- Collaborated with a cross-functional team to deliver a seamless and responsive user experience.

Google Form Replica | *(HTML, CSS , php , mySQL)*
- Developed a Full Stack application which is designed and implemented user-friendly interfaces for course browsing, purchasing, and management which has User and Admin roles .
- This provides Encryption, Authentication and Authorization using JWT Tokens, middleware for security purposes.
- Engineered robust backend APIs to handle user requests and send responses efficiently .
- Collaborated with a cross-functional team to deliver a seamless and responsive user experience.

TECHNICAL SKILLS

Languages : C , C++, Python ,JavaScript/Typescript .
Frameworks / Libraries: ReactJS , ExpressJS, Bootstrap, Tailwind, Docker
Operating Systems : Linux Distributions , MacOS , Windows
Database : MySQL , NoSQL , MongoDB , SQL
IDE & Developer Tools : VS Code, Postman, Git & GitHub as Version Control System.

HIGHLIGHTS

- Experience in Full Stack Web development using React , Express ,Node ,MongoDB
- Sound knowledge of operating systems internals, Blockchain,
- Experience in both producing clean and efficient code as well as debugging and understanding large code bases.
